"I was born and raised 20 miles north of Pittsburgh, PA in a small farm town and have been riding horses since I was 6 years old. For the past 21 years I've trained under many instructors and have personally dedicated myself to showing; Hunters, Jumpers and Western Games. In addition, I've worked as a professional exercise rider, braider, barn manager and local show judge. I especially enjoy working with off-the-track thoroughbreds giving them a second chance from the racetrack to the show ring. For the past 10 years I have been teaching beginner riders up through intermediate 3 foot Hunter Jumpers and enjoying their accomplishments in the ring. I am extremely passionate about building the bonds between Horse and Rider and setting goals for my students to reach their highest potential whether it be for fun or for competition. Most importantly, I absolutely love what I do. See you in the arena!"
